

The California Public Utilities Commission (CPUC) wants to take away my mobile phone number. I will be forced to notify my friends, family, customers and clients of the number change -- all at my own expense. Many people I have provided my business information to are not yet customers, but have potential to become customers. I have kept my cell phone service with a provider I am not thrilled with for the sole purpose of maintaining the same phone number. Please do not jeopardize my future business.

And, I'm not the only one who will have to face this ordeal. The San Bernadino Sun writes, roughly 3 million customers will be affected by this take away scheme, which is not only anti-consumer, but also anti-competitive and discriminatory.

There is an alternative. An all services overlay would allow me and every other existing customer to keep our numbers, and wireless and wireline customers would be treated the same.

Wireless users should not be singled out in order to solve the states number crunch, I urge you to consider an all services overlay.

Sincerely,

Gary Brown  
308 North Sycamore  
Los Angeles, CA 90036
